DAILY RECORD-UNION

MONDAY AUGUST 4, 1884

The RECORD-UNION is the only paper on the coast, outside of San Francisco, that receives the full Associated Press dispatches from all parts of the world. Outside of San Francisco it has no competitor, in point of numbers, in its home and general circulation throughout the coast.

S. C. Beckwith, "Tribune" Building, New York, sole agent for the Eastern States. Wm. Cameron, No. 8 New Montgomery street, San Francisco, special agent for San Francisco and vicinity.

The RECORD-UNION's challenge of February 13, 1884, to the "Boe" as to circulation, and repeated July 28, 1884, remains open for acceptance.

THIS MORNING'S NEWS

In New York Saturday Government bonds were quoted at 120% for 100, 112% for 45%; sterling, \$4 82%; 34 84%; 105% for 3s; silver bars, 110%.

Silver in London, 50%: consols, 100 1/2-16d; 5 per cent. United States bonds, extended, 100%.

In San Francisco Mexican dollars are quoted at 85% (60) cents.

At the close Saturday afternoon the San Francisco stock market was fairly well sustained, though some of the middle stocks did not come up to previous prices. Prices were quoted as follows: Gold, \$2 10s; Silver, \$1 8s; Chollar, \$2 92s; Posoli, \$1 6s; Savage, \$1 5s; Bond & Boleyer, \$2 92s; Gould & Curr, \$2 55; Opie, \$1 6s; Mexican, \$2 2s; Union, \$1 9s; Sierra Nevada, \$2 55; Yellow Jacket, \$2 10s; Astor, \$2 20s; Mono, 20c.

The alliance between the Pennsylvanians and the Burlington roads will give a new strength to San Francisco.

Many men lost their lives, and several others were poisoned by eating pills in a Philadelphia boarding house.

John Turner defeated Wallace Ross in a single-round race at Oak Point Saturday.

Paul S. trotted a mile in 2094 1/2 Cleveland Saturday.

Assistant Secretary of the Interior Joslyn has declined to assist the miners in collecting money loaned to department clerks.

William Chittenden, a mining prospector, shot himself through the head at Denver last Saturday.

The Apaches from the reservation at Fort Stanton, N. M., are again on the war-path.

Jesus Green, ex-Under Sheriff, was shot and killed by Clay Cooper at Dodge City, Kansas, Saturday.

Fire at Buffalo, N. Y., Loss, \$200,000. Also, in Lexington county, S. C., Loss, \$100,000; insurance, \$12,000.

John Galvin shot and killed Tobe Hawkins at Albany Saturday.

The steamer Eagle from Newburg for Albany, was scuttled Saturday.

A company has been formed at Denver to establish a crematory.

The Egyptian Conference has proved a failure.

Precautions are being taken against the spread of cholera in the cities, being taken by Com-

mander-in-Chief, at London.

The English Government has resolved to reduce its forces in Ireland.

Four counterfeits have been arrested at Portland, Ore.

William Harris, a brakeman, was fatally injured at Sacramento Saturday.

Fred Cogdon, an old pilot of the Columbia river, died at The Dalles last Saturday.

Sylvas, the murderer, was convicted of murder in the first degree at Los Angeles Saturday.

"Dutch Louise" was hanged by cowboys at Crooked Creek, M. T.

Postage clerk in the First National Bank of Portland, Oregon, is from \$5,000 to \$8,000 short in his accounts.

An American frigate, supposed to be the Lancaster, is ashore on the Eniwetok coast.

The village of Afton, N. Y., was half destroyed by fire yesterday morning.

The United States Hotel at Washington fell in yesterday, burying many of the inmates in the ruins.

Lieutenant Greely and party are to have a grand reception at Portsmouth, N. H., to-day.

General Grant visited the reunion of Army Chaplains at Ocean Grove, N. J., Saturday.

Robert A. Lynch, local editor of the *Los Angeles Herald*, died suddenly from apoplexy.

It is therefore reasonable to suppose that the most northerly land of Greenland is not much, if any, beyond 84°.

DOMESTIC REFRIGERATION.

The "ice question" in all warm climates is a serious one. The cost of the article to the consumer is never so low as to reduce it from the plane of a luxury.

The temptation to too freely use it, is ever present, and no small amount of physical ill results from this fact, and from its some time impurity. Yet there is an ever present necessity, a great part of each year, in the temperate and torrid zones, for a lowering of the temperature of given rooms, or receptacles of certain food, below the normal stage. The icebox, or refrigerator, in some form or other, is a necessity in every family, or where not employed, then methods of inducing excessive evaporation on moist surfaces are adopted.

Any economical plan, therefore, that will enable us to attain the ends for which it is used, without the inconvenience and loss consequent upon handling that article, will be received with favor. It is believed, the desired results may be reached by the use of refrigerating machines, more than one kind of which is offered in the market. Small machines can be constructed for household purposes that are not dangerous and are very economical, while larger ones can be used to supply, with exceeding cheapness, given districts with cold air through pipes, just as water and gas are supplied.

By the use of coils of pipe in the chill-room, or refrigerator box, through which the machine forces either cold air or a freezing fluid, heat is absorbed and the desired lowness of temperature may be secured. The "Century" informs us that some of these machines are already in use in New York. The advantage of them over ice is specially demonstrated in large tenement and business houses and hotels, where one machine in the cellar can be made to cool at will any closet, pantry or room in the whole structure, a feat quite impractical of accomplishment by the use of ice.

If the great ice companies are wise they will themselves take hold of these machines and put them into use, since it is asserted that they are economical of operation, and yield larger profits at far less cost to the consumer than does the sale of ice.

The sanitary advantages and convenience of the system are strong pleas in its favor. The same machinery that circulates the cold fluid, or the air from compressor-motors, will manufacture ice, and thus the companies can either contract for domestic refrigeration of every room in a house, or can supply a pound of ice as desired. We are told that already all the refrigerators in all the stalls of the largest market in New York city are supplied with refrigerator pipes from a central station. For butchers and dealers in perishable food products the pipe system would appear to have very strong claims.

BANKING THEN AND NOW.

The *Commercial Gazette*, of Cincinnati, calls attention to a fact a great many people lost sight of in political debate—that to the Republican party alone is due the credit for supplying the old and vicious system of private bank issue, by a currency good in every emergency. Let any whose years qualify them recall the days of 1857.

Then every village that could boast a town pump had its bank of issue. One could not receive \$100 without having in possession the promises to pay of a dozen or more banks, concerning the financial standing of which no man could keep track. Business

men rushed to banks of deposit daily to unload receipts, for fear that by another dawn their values would be dissipated by the quotations. Counterfeiting in those days had a constant harvest feast. Failures of banks were every-day occurrences, and wildcat banking was the rule, and sound financial systems the exception. The slight disturbance of the financial market sent the notes of the thousands of "banks" rattling downward, and no man could know from one hour to another what he was worth. But under the policy of the Republican party there was established a system in which the people have confidence, and the result is that people prefer the "promises to pay" of the national bank system to the specific. People now hoard currency instead of coin, because it is as good as coin. The country has confidence in the national banking system established by the Republican party in the teeth of Democratic opposition.

AN ANNIVERSARY.

Thursday next is the thirtieth anniversary of the birth of the Republican party. The cry is that it has already lived too long. But this utterance comes with ill grace from a party that absolutely ruled the Union for sixty years and molded its destiny. There is some desirous as to just who made the first step that led to the formation of the party—but that is immaterial. We can very well agree that the day shall be celebrated on the 7th inst. The people of Strong, Maine believe the birth honor is theirs. Many places dispute the claim. All may have some reason to wear the wreath of distinction. The truth is, there was such simultaneous action, by so many in different parts of the land, at about the same time and in the same direction, that it is quite impossible to say who first moved on the new political line. It is enough to know that it was born in response to the wish and thought and heart of the nation; that it was born in response to the will of our people, privy vaults, cellars, stables, and, as the city of Sacramento, the vaults of the Bank of America.

For a full discussion of the subject was had at our meeting last Wednesday evening, to confer with the City Trustees and urge the formation of a committee of five appointed by the previous meeting, their Chairman, Dr. W. R. Cluness, made the REPORT.

Mr. Chairman and Committee: Your committee, appointed at our meeting last Wednesday evening, to confer with the City Trustees and urge the formation of a committee of five appointed by the previous meeting, their Chairman, Dr. W. R. Cluness, made the REPORT.

ACTION SALE.

D. J. Simmons & Co.—Karcher residence to-day.

Business Advertisements.

Hale Bros.—Summer clearance sale. Red House—Special sale.

Dealers—Shoe—Sheet and shawl.

LOCAL INTELLIGENCE.

STATE FAIR MARTINS.—The Directors of the State Agricultural Society will meet at the new Pavilion at 2:30 p.m. to-morrow for the purpose of opening the entries to the races which are to take place at the new fair grounds. The Secretary says that the number of entries is in excess of that of any former year, and he is confident that every race has filled. Nearly all the available space in the Exposition building has already been taken, and it is believed probable that more machines will be made to be made out of the concrete foundation for the 150 horse-power engine was finished Saturday. A concrete tank, 20 feet square and 4 feet deep, will be used in the engine room, and will be surrounded by a steel frame. E. F. Woodward will commence to-day to set the mammoth boilers that were made by J. A. Cunningham, of this city, at the Park and Pavilion have been made, the Society will have expended this season over \$40,000. The Society has such facilities as this year. At the track and field meet, the Society has made arrangements, and from letters received asking for accommodations, the Secretary is of the opinion that they will not have room enough.

SEMED TO LIKE IT.—Yesterday afternoon Kit Jackson arrested William King and Mark Duffy, whom he found engaged in the March of Queensberry rules. The offer in chancery had scarcely returned to the office and hung up the key of the building as unpleasantness, when he heard sounds of unpleasantness, and he rushed to the cell in time to find the prisoners employing themselves in a lively manner, straight from the shoulder. They were immediately separated and given separate apartments.

JUDGE COURT.—In the Police Court, Saturday, J. J. Sawyer and Wm. H. Hart, are before the judge, and he has before him the depositions of Chris Kili, alias Toots, for being drunk, was fined \$35, or thirty-five days in the City Jail.... The case of Lou Morris, for disturbing the peace, was dismissed on payment of a fine of \$10. The case of Jacob Schmidt, for mislemerance.... The cases of Sam Hines, Richard Roe and John Doe, for mislemerance, were continued until the 7th.... Another case of game laws was pending until this morning. Tom Donahue, for disturbing the peace, was fined \$10.... The case of Mrs. Mary Perry, for disturbing the peace was continued until the 7th. W. H. Hart, Justice Court foreman, was recently convicted of battery upon his step-mother, was fined \$40.

EXPERIMENT.—An up-town grocer a few days ago received a consignment of fruit, and found that half a dozen or more apples were included in the shipment. On inquiry of an incoming ton of fruit, he concluded to try the effect of coal oil upon the worms. It was evident that they did not like to be near it, and a drop upon each of the worms caused them to jump out, causing their bodies to blanch out white. The grocer thinks that a lime made by pouring coal oil around an orchard or garden will keep the worms out, as the worms will be obnoxious to them. It would not take much oil, and the expense would be light.

CITY TREASURY.—The following sums were paid into the City Treasury for the week ending August 2d. By Joseph N. Herndon, centerer \$132. A. S. M. was \$120.25; Wm. H. Breen, harbor dues, \$55; George A. Putnam, city licenses, \$557.28; dog license, \$20; special tax, \$41.20; Wm. H. Breen, justice of the peace, \$9; H. B. Nielsen, street assessment, \$174.35. Total, \$8,170.75. Disbursements, \$13,069.70. Total amount in City Treasury, \$8,000.

ONLY DAY MORE.—Foreign born residents entitled to be naturalized, and who desire to vote at the next general election, should bear in mind that to-morrow is the last day they have in which to attend to the matter, and to provide for a man having his election papers ninety days prior to his election day.

COMMERCIAL.—Since the last report following steamboats have arrived at Sacramento: San Joaquin No. 2, from San Francisco, with general merchandise and a large quantity of fruit; San Joaquin No. 3, from San Francisco, with barrels of grain; Virginia, the upper Sacramento, with barrels of freight; and San Francisco, with barrels of hay, and Neponset, for the upper Sacramento, with general merchandise.

METROPOLITAN THEATER.—This evening at the metropolitan Theater, the Madison Square, the "Rajah" will be produced, and the favorite artists will appear in "The Rajah," which was the latest success in New York and San Francisco. It is a unique comedy, and is brilliant, gay, and pathos, and is bright and sparkling. It will be given in its entirety, with the fine scenery and remarkable stage mechanism, including the glade scene, which was a great success in Sacramento, but two nights.

AVON SALE.—D. J. Simmons & Co. will sell at auction to-day, at 10:30 a.m., on the premises, the residence of Matt, Karcher, on the west half of lot 3, G. and H. Hart streets, and a garden, with fine trees, and shrubs. Any one desirous of purchasing a good home will find this an excellent opportunity to secure a bargain, as the property will be sold to the highest bidder. It is also a good investment for a home.

EDWARD HORNEMAN, Dr. A. B. Nixon, physician in charge of the Railroad Hospital, reports as follows for the month ended July 31, 1884: Present in hospital, 47; admitted during the month, 44; total, 81. Discharged, 42; died, 21; 44; 41; 44; 41; 41; 40; 37. Hospital fees, \$35. Private house and office patients treated, 208; total, 289.

B. H. Herringbone straw hats reduced from 50 cents each at Hale's to-day.

Hale's clearance sale begins to-day.

Sergeant Barwick's Report.

The temperature, wind and weather at 12 m. on Saturday and yesterday were: For Olympia, 82°, calm and clear, and 80° north and east; Portland, 83°, south and fair, and 89° northeast and clear; Fort Canby, 61°, south and cloudy, and 80° east and clear, 87°, north and clear; Mound and clear, and 87°, north and clear; Modoc, 70°, north and clear; Sacramento, 73°, northwest and clear, and 80°, north and clear; Salt Lake, 80°, calm and fair, and 78°, west and clear; Cheyenne, 60°, west and cloudy, and 74°, east and clear; Denver, 71°, northwest and clear, and 75°, east and clear; North Platte, 71°, northwest and fair, and 78°, northwest and clear; Omaha, 74°, northwest and clear, and 75°, north and cloudy; Yankton, 72°, northwest and clear, and 77°, northwest and clear.

The comparative weather table below for July, 1884, shows the past the month to have been made more moderate ever before since signal records began. The maximum or highest temperature was less than usual for July, although the lowest temperature reached was not the lowest in 1882, 1883, 1884, produced the highest mean and maximum temperature. Speaking in a meteorological sense, the effects of the weather on the different departments of man's industry, in every particular, accompanying this comparative table will be found a brief summary of the weather for July, 1884:

July. 1879, 1880, 1881, 1882, 1883, 1884.
Mean barometer 29.84, 29.88, 29.91, 29.89, 29.92, 29.85.
Mean temp. 65.9, 64.1, 64.4, 64.4, 64.4, 64.4.
Maximum temp. 100.0, 98.6, 96.8, 96.5, 96.0.
Minimum temp. 55.9, 53.5, 53.5, 53.5, 53.5, 53.5.
Total rainfall, Spk. Spk. Spk. Spk. Spk. Spk.
Prevailing wind, S. S. S. S. S. S.
Monthly vel. 4.692, 5.333, 5.570, 5.445, 5.084, 5.778.
Clear days, 29, 26, 31, 31, 31, 29.
Cloudy days, 0, 0, 0, 0, 0, 0.
Days rain fell, 1, 2, 1, 2, 0, 0.

SUMMARY FOR JULY, 1884.—Average hourly temperature, 65.9°; daily range, 34.2°; monthly range, 35.8°; miles from the sea, 4,200 m., for 7 miles, from the sea, 5,000 m., for 5,000 m., 6,3 miles, from the sea, 12,200 m., 8,3 miles, from the sea, 16,200 m., 12,200 m., from the south. At 8 p.m. 8 miles, from the southwest. Highest water in the river during the month, 11.6 feet, on the 31st. Range of water in the river during the month, 7.7 feet.

The San Francisco Examiner says that the failure of the port harbor, and the want of a harbor, has been a great hindrance to the growth of the city. The new wharves coming in, are a community, a port, ranging from forty to fifty cents a pound. It is estimated that from 50,000 to 60,000 barrels will be exported from this port, and that the old ones will sell for \$2 and 35 cents according to quality. The brewers of this city have formed a combination to discourage the introduction of beer into the city, and to keep the price of beer high. The manufacturers of ale, porter, and stout will not say that the water of this city is chemically pure, but they do say that it is good enough for the people of this city to drink.
